GLAVIS EXCUSED BY ATTORNEY FOR BALLINGER TODAY

After Exhausting Cross-Examination That Lasted Several Days.

Admits Secretary Had Done Nothing Wrong.

GOVERNOR OF PORTO RICO.

Washington, Feb. 19.—When the Hallinger-Pinchot hearing was resumed, Attorney Vertrees on behalf of Ballinger said he had no more questions to ask Glavis, the chief prosecuting witness, and he immediately called to the stand Henry M. Hoyt, attorney general for Porto Rico, and formerly assistant district attorney at Seattle.

Some idea of the extent of the examination of Mr. Glavis may be gained from the fact that, including the two sessions, the printed testimony of this witness alone covers nearly 1,000 pages.

Mr. Vertrees and Mr. Glavis had several long wrangles as to the meaning and intent of many of the letters and telegrams in the record. A typical instance was a telegram from Mr. Ballinger, in reply to a message from Commissioner Dennett, of the land office, in which the secretary stated his reluctance to act in the Alaskan cases, and suggested that Mr. Dennett make the necessary orders himself as to postponing the hearings.

Different Construction.

Mr. Vertrees sought to show that this meant that Mr. Ballinger was not directing the Alaskan cases in any way whatsoever. Mr. Glavis, on the other hand, insisted that the only construction he could put upon the telegram was that it showed that none of the officials in the department dared do anything in the case without first consulting the secretary. Mr. Glavis contended that the telegram conveyed a specific order from Secretary Hallinger.

Mr. Vertrees, at the morning session, drew from the witness the important fact that at the time the Cunningham claims were ordered "clear listed," in January, 1908, and

YOUNG MOTHER

LEAVES THREE LITTLE CHILDREN BEHIND HER.

Mrs. Gertrude Dye Hamilton Succumbs to Pneumonia—Children Die.

Mrs. Gertrude Dye Hamilton, 26 years old, wife of Charles E. Hamilton, died at their home, 235 Fayette place, of pneumonia, after an illness of eight days. Besides her husband, she leaves three children: Gertrude May, 7 years old; Roy Moses, 2 years old, and Daisy Ellen, 2 months old. Mrs. Hamilton was a woman of Christian character. She was a native of Shawneetown, Ill., and came to Paducah about eight years ago. The funeral will be held tomorrow afternoon at 2 o'clock at the house and 2:30 o'clock at the Mechanicburg Methodist church. The Rev. Mr. Ward officiating. The burial will be in Oak Grove cemetery.

Thomas Alex Crane. Thomas Alex Crane, the 2-year-old son of Mr. and Mrs. Thomas Crane, of 504 South Third street, died at 12 o'clock today of pneumonia, making the death of Mr. and Mrs. Crane's second child in two weeks. The funeral will be held at 2:30 o'clock tomorrow afternoon at the home with burial at Oak Grove cemetery.

Algie C. Wade. Algie C. Wade, one year old, son of Mr. and Mrs. A. C. Wade, 429 Hayes avenue, died at 7 o'clock this morning of pneumonia. The funeral will be held at 2:30 o'clock tomorrow afternoon and burial at Oak Grove.

William Morrison. The funeral of William Morrison, the 18-month-old son of Mr. and Mrs. Holland Morrison, of 820 South Sixth street, was conducted at 2:30 o'clock this afternoon at the home, the Rev. M. E. Dodd, pastor of the First Baptist church, officiating. Burial was at Oak Grove.

Marriage Licenses. V. G. Monroe, 25, of Graves county, farmer, and Maude Ethel Carr, 23, of Graves county.

Less Than Twenty More Days Left For Legislature and in Ten Days More Rules Committee Will Rule

Both Houses Adjourn Until Wednesday on Account of Washington's Birthday After Half Day Session.

Frankfort, Ky., Feb. 19.—When both houses adjourn it will be to next Wednesday. This will mean no sessions on Monday, and Tuesday, which is Washington's birthday, a national holiday. It is highly probable that the press of work during the closing weeks of the session, will necessitate sessions on Saturdays.

Today is the 41st day of the present session, leaving only 10 more until the sine die adjournment. In four days more the committee on rules of the house takes charge of all legislation in the lower branch, and only nine days will elapse until the senate rules committee will be absolute masters of the situation in the upper house. All bills that are expected to be passed over the governor's veto must be out of the way in both houses and sent to the executive before the next nine days expire. There is again much talk of night sessions, and the plan may be put into effect next week.

Clash Over Bank Examiner Bills.

The clash between the two bills pending in the legislature providing for state bank examiners, came to an open rupture before the joint committee on banks and banking. The main difference in the measure

Tobacco Trade Dull.

Mr. M. V. Farmer, local salesman for the Planters' Protective association, returned to his home in Murray and will return here next week, when sales will be resumed. Today was dull in tobacco circles, but the movement is expected to open up next week.

In Bankruptcy.

Arthur A. Peck, a riverman, living at Wickliffe, Ky., formerly of Paducah, filed a voluntary petition in bankruptcy in federal court here this morning. His liabilities are listed at about \$4,422.25, while his assets amount to about \$300. The latter consists of \$100 worth of furniture and a fuel harge valued at \$200.

Will Unfurl Old Glory

Washington's birthday will be observed in Paducah with Old Glory floating from all the public buildings. All the buildings have the flags, and today Mayor Smith issued an order for the state holiday to be observed by raising the flags. The request was made by the Daughters of the American Revolution that the flags be unfurled on that day.

CUSTOM HOUSE JOB FOR PADUCAH MAN

H. T. DAVIS GETS CONTRACT FOR INTERIOR WORK—JULY 31 LIMIT.

H. T. Davis, the Paducah contractor was awarded the contract on the interior work of the custom house for \$3,300. The work must be finished by July 31. Hardwood finishings will be installed.

Oratorical Contest Entries Are Named

Elaborate preparations are being made for the annual oratorical contest between high schools in western Kentucky, at Paducah, Friday evening, February 25. The contest will be held at the Kentucky theater and it will be beautifully decorated for the occasion. To add to the general interest displayed in the coming event several business houses along Broadway will decorate.

Principal W. H. Sugg, of the local high school, said today that all towns had been heard from except Henderson and Pembroke. He expects to hear from them this afternoon or tomorrow. So far there will be only one girl to contest for the honors. She is Miss Stella Anderson, representing the Paducah high school. Professor Sugg announced the following speakers who are to take part: Mr. Soyars, of Hopkinsville; Willie Bourland, of Madisonville; Willie

THAW DYNAMITE.

Somerset, Ky., Feb. 19.—While thawing dynamite at Cedar Grove, four miles south of here today, three Italian workmen were killed by an explosion that made houses rock in Somerset.

STREET CAR MEN STRIKING AGAIN

PHILADELPHIA SCENE OF ANOTHER TROLLEY LINE DISTURBANCE.

Philadelphia, Feb. 19.—Following the dismissal of several hundred union trolley men by the Philadelphia Rapid Transit company today, union conductors and motormen began a strike early this afternoon. National Organizer Pratt ordered the strike after a series of ineffectual conferences between the union leader and the transit company, which refused absolutely to grant demands for a wage increase and union recognition.

Fred and "Mattie."

Fred Foster, Paducah's Saturday Evening Post magazine, will leave this evening for St. Louis, where he says he is going to spend Sunday with Christopher Mathewson, the world's greatest baseball twirler. Fred says he is a personal friend of "Mattie" and other well known baseball players. He will return home Monday.

Big Stage Expected.

"From the present water in sight we are expecting a stage of 25 feet here by next Wednesday," said Mr. Saunders A. Fowler today after looking over river records. "The river here will rise on an average of three feet a day." Mr. Fowler says positively there will be more water here on account of the heavy snowfall along the Ohio valley.

DEPUTY CLERK KIDD IS ILL AND OFF DUTY TODAY.

Deputy Circuit Clerk Will C. Kidd is ill at his home, 1616 Jefferson street, as the result of being over-exhausted several days ago while in a hot bathroom. His many friends hope that he will be able to be out soon. During his absence Mr. L. P. Palmer is assisting in the office during the session of circuit court.

JANITOR MAY BE HANGED FOR ATTACKS ON GIRLS.

Kansas City, Mo., Feb. 19.—Seven little girls were taken before the grand jury today to tell of alleged attacks upon them by William Jackson, negro janitor of the Aldine flats, in which the girls lived. Prosecutor Conkling says he will ask that the death penalty be inflicted, which is provided for that offense in Missouri. Jackson was arrested yesterday. At an examination before Police Captain Whitsett and Assistant Prosecutor Higgins, he admitted his crimes. He declared he bought gifts for the girls and induced them to go into the furnace room. During the examination at the police station, Patrolman Ake, an uncle of one of the girls, drew a revolver and tried to shoot Jackson. He was prevented by other policemen.

Miss Campbell's Funeral.

The funeral of Miss Annie Campbell, who died yesterday morning at her home at Meyers and Mill street, Mechanicsburg, was held at 10 o'clock this morning at the residence of the Rev. W. H. Burwell, pastor of the First Presbyterian church, officiating. Burial was at Oak Grove cemetery.

FUTURE TRADING IS DEFENDED BY THE CHICAGO "PIT"

Former President of Board of Trade Declares Producers Are Protected.

All Risk is Taken by Gamblers Themselves.

RAILROAD BILL IS REVISED.

Washington, Feb. 19.—At touch of politics was injected into the hearing before the house committee on agriculture on reports of grain markets opposing the bills to abolish trading in futures. Former President Fitch, of the Chicago Board of Trade, insisted that the grain producer is the "best fixed" of any party to the whole question of grain transactions and that the burden of risk and loss has not been on the producer at any time in the last twenty years. "I say," he added, "that the producer is the best fixed at the present time, because the money is rolling into the land and

"We won't go into that," interjected Chairman Scott.

He rapped for order, and the crowd laughed.

"In what way would you readjust your business in case future transactions were abolished?" asked the chairman.

"There would be chaos in every business pertaining to grain, also into chaos," answered Fitch. "It would disturb something that has taken sixty years to get where it is. Chaos would stretch all the way from the farmer to the exporter."

Fitch prophesied that the day would soon come when the grain interests would be in Washington to argue that unless congress wants the country to go hungry it will have to "take that duty off Canadian wheat."

Fitch asserted that the board of trade courted the fullest investigation, its rules and principles were built on integrity, and even and fair dealing. He defended future contracts as an insurance system, without which the middleman would have to levy double the present charges. Grades deliverable on futures he described as well defined and always easily understood.

The cities reported include Chicago, St. Louis, Kansas City, Omaha, Minneapolis, Duluth, Milwaukee, Toledo, Buffalo and New York.

Vice-President Merrill of the Chicago board of trade, directed the presentation of views.

MORPHINE DRUNKARD MURDERS CHILDREN

Birmingham, Ala., Feb. 19.—George Stephens, 38 years old, engineer on the Louisville and Nashville railroad, son of a prominent mine operator, today shot and killed his three children: Mary Elizabeth, 9; Blanche, 4; and Jamie, 1, and shot and fatally wounded a colored nurse and then killed himself. The father was a widower, he was crazed with morphine at the time of the killing.

BIG BATTERY OF FOUR BOILERS BUILT HERE

A Paducah firm has just signed up what is said to be the largest contract of its kind ever made here. During the past week the Fowler & Wolfe Boiler Works, on Broadway, contracted for the building of a battery of five boilers for the big towboat Dolphin, owned by the Patent-Culley Transportation company, of Memphis, Tenn. The contract also includes the building of smoke stacks. The work will amount to several thousand dollars and will be the biggest piece of work ever done here, as most contracts are for two and three batteries of boilers, most commonly used. The contract provides that the work shall be completed by April 15 and work is being rushed on the job.

Twelve Prisoners Hurried Out of Cairo and Fourth Company of State Militia Arrives to Protect the City

Investigation of Cairo Company's Slowness May be Made—Halliday Died of Wounds.

All quiet in Cairo. Two companies of militia and extra guards on duty. Halliday died of wounds. John Pratt, negro mob was after for purse snatching, sentenced to 25 years and taken to prison. Commercial organizations denounce mob.

Cairo, Ill., Feb. 19.—Twelve negroes, including John Pratt, who caused the outbreak, were hustled out of the city this morning shortly before daylight. They were taken to a train under guard of two deputies and eight militiamen. They feared for their lives and confessed to various crimes yesterday so they could have protection of the authorities from the infuriated citizens. They were taken to the train. The streets were almost deserted, and there was no demonstration. Authorities fear a demonstration may begin at any time. Members of the mob declare today the sheriff ordered them to disperse and fired before order could be executed. They deny firing at the jail.

Adjutant General Dickson, who is now in charge of the situation, has ordered Lieutenant-Colonel C. E. Rynan, of Effingham, to come at once and take active control of the troops. The fourth company of militia, Company 1, arrived at 1 o'clock this afternoon. Capt. J. J. Bullington is commanding 40 men, which will increase the military here to 145. It is reported that an investigation will be made into the condition of the local company for failing to respond promptly to the order of Sheriff Nellis on the night of the outbreak.

Cairo, Ill., Feb. 19.—This city was quiet yesterday and last night. There were some wild rumors afloat at various times, about squads forming in various places, and of a determination on the part of citizens to resist the killing of a member of the mob. The feeling was strong that while the sheriff had done right in upholding the law, he had not used the best of judgment in the method adopted. The criticisms were directed mostly at the circumstance of engaging negro deputies to shoot down white men, and at the refusal to permit any one to approach the dead man. But the sheriff explains these circumstances by saying he could not get citizens to serve and that the governor directed him not to permit any one to approach till the militia had arrived.

There were few people on the streets and these seemed to pursue their ordinary affairs.

There was some talk of retaliatory steps, which involved the burning out of negroes generally, but this was not taken seriously, although it led to the request at the citizens' meeting last night that the mayor appoint as many special officers as he might deem necessary to patrol the city.

Many strangers were in the city, coming from all directions, evidently as sight-seers.

The several inches of snow on the ground prevented getting about easily.

The city is not under martial law, but is in the hands of the properly constituted authorities to whom the soldiers are subject. The soldiers are quartered at the court house, with a squad or two passing up and down the streets at intervals.

Shot Was Fatal. Coroner McManus held an autopsy yesterday on the remains of Alex M. Halliday, who was killed by Zada Jones, daughter of Sherman Jones, of the Cunningham neighborhood, resulted in the young man being, perhaps, fatally shot Tuesday night. He and the young lady had been intercepted a few nights before by Sherman Jones while making their way to the Tennessee border. Tuesday night young Pruitt with a friend called at the house to boldly secure the young woman. Her father shot Pruitt and afterwards surrendered to the sheriff.

IS THERE A JOKER IN RULES ADOPTED BY CITY COUNCIL?

Committee May Have Authority to Throttle All Legislation.

Referred Arbitrarily by Presidents.

TWO-THIRDS RULE IN VOGUE.

Every ordinance or resolution shall, upon its introduction by any member, be referred by the chair to the proper committee, to be named by the president at the time of the reference thereto, and upon the report of the committee to which such ordinance or resolution is referred, if the committee reports same favorably, such ordinance or resolution shall be put upon its first passage.—Rule 8, board of aldermen, and Rule 5, board of councilmen.

Any of the foregoing rules may be suspended for the time being, two-thirds of the members present consenting thereto.—Rule 16, board of aldermen.

Is there a joker in the new rules of the general council?

It's striking similarity to the state rule, by which the county unit bill was prevented from getting to a vote, when a bill is reported adversely, nothing short of a two-thirds vote will get the bill before the senate.

The rules of the board of aldermen and councilmen, say that if an ordinance or resolution is favorably reported, it shall be put upon passage, but there is nothing said about putting it on passage, if not favorably reported, and there is no way to make a standing committee report.

Moreover, the rules are changed, so that the presidents of the two boards have arbitrary authority in referring ordinances. They may send any measures they please to unfriendly committees, where they will be hurled or reported unfavorably. Then a two-thirds vote in the senate, it seems, is necessary to put the ordinance or resolution on passage.

Whether or not, this is the correct interpretation to be put upon the rules, will soon appear when some alderman tries to get his pet measure away from an unfriendly committee.

It is certain that the authority to refer is taken out of the hands of the authors of the measures, and placed entirely at the discretion of the presidents, which is significant in itself.

Governor Pardons Nelse

Frankfort, Ky., Feb. 19. (Special.)—Governor Augustus E. Wilson today granted a pardon to the "Rev." Nelse Perkins, colored, sent to the penitentiary for one year from the McCracken circuit court for grand larceny. He was sentenced last September.

Perkins was arrested for stealing timber belonging to the Morgan Lumber company in Tennessee and bringing it to Paducah. He tried to keep from serving the sentence because the lumber was stolen in Tennessee, but the court held that he brought it to Kentucky and was within the jurisdiction of the McCracken circuit court.

TILLMAN'S CONDITION IS LITTLE IMPROVED

Washington, Feb. 19.—Slight improvement in the condition of Senator Tillman was reported this morning, following a fairly restful night. He seemed able to recognize members of his family, though his powers of articulation are now completely suspended and probably destroyed. Almost complete paralysis of his right side has followed cerebral hemorrhage of the left side of his brain.

Boston, Feb. 19.—The best match of five played in the National Amateur Racquet championship tournament was one wherein H. F. McCormick, of Chicago, title-holder, defeated William Stackpole, of New York, in four games. The latter won the first game, and lost the next two by narrow margins. In the final game he was so spent McCormick won easily.

Unrivaled in effective realism, yet marked by soaring simplicity, "The Railroad Scene" with which "The Traveling Salesman," James Forbes' absorbing comedy is opened, and which comes to the Kentucky before the season ends. Particular attention has been called to the railroad scene by the praise which has been bestowed by the setting by those who know, the Order of Railway Conductors of America, during its national convention in Boston last season, and probably no theater in that city entertained so many railway conductors as "The Traveling Salesman," and largely because of the stirring railroad station scene in the first act.

NATIONAL ADOPTS 154 GAME LIST

PRESIDENT OF PITTSBURGH CLUB SAVED DEADLOCK.

108 Games Scheduled for Western League This Season—Took Four Days' Discussion.

WESTERN MAGNATES DECIDE

New York, Feb. 19.—The National League adopted a 154 game schedule. Though the wishes of the American League are thus met, that league's interests were disregarded when it was resolved to stretch the schedule to October 15. The American schedule terminates October 9. Ebbets, of Brooklyn, and Murphy, of Chicago, insisted on using their players up to the contract time, October 15.

Dreyfuss, of Pittsburgh, was the only club owner willing to make concessions, and he saved the league from a deadlock.

Pittsburgh voluntarily took some of the Sunday games in Chicago that had been assigned to St. Louis and St. Louis goes to Cincinnati on those dates to fill the Pittsburgh engagements.

Western League.

Chicago, Feb. 19.—Late last night, after four days' discussion, the Western League adopted a 158 game schedule, opening April 22 and closing October 3.

The opening games will be:

Lincoln at Denver; Des Moines at St. Joseph; Sioux City at Topeka; Omaha at Wichita.

The holiday games are:

Decorated Day—Omaha at Des Moines; Lincoln at Sioux City; Topeka at St. Joseph; Wichita at Denver.

July 4—Des Moines at Sioux City; Omaha at Lincoln and Lincoln at Omaha; Wichita at Topeka; Denver at St. Joseph.

Labor Day—Sioux City at Des Moines; Lincoln at Omaha; St. Joseph at Denver; Topeka at Wichita.

The Officials.

Chicago, Feb. 19.—Frank Duncan, of Sioux City, was elected vice-president of the Western League, to succeed C. B. Carille, of Pueblo, who sold his franchise to St. Joseph.

Frank Isbell, of Wichita, was chosen director, to succeed R. R. Burke, of Denver, who sold his interest in the Denver club to J. S. McGill.

The officials now are:

President, secretary and treasurer, Norris L. O'Neill, Denver; vice-president, Frank Duncan, Sioux City; directors, Higgins, Des Moines; Rourke, Omaha, and Isbell, Wichita.

BALLINGER CASE

(Continued from Page One.)

In fact up to the time that Ballinger left the service as commissioner of the land office, March 4, 1908, there had been no adverse reports on these claims, and that the Cunningham "Journal," which contained the first evidence of alleged agreement among the claimants, had not then been discovered.

The late afternoon session was devoted to an inquiry into the motives of Mr. Glavis in seeking the assistance of Clifford Pinchot. Glavis said he went to him because he had faith in him and felt he was absolutely sincere.

Some Heavy Evidence.

Mr. Vertrees explained several of his long questions by the statement that he was searching out the motives of the witnesses to ascertain whether they were innocent or malicious.

As to Mr. Ballinger's participation in the Wilson Coal company case, Mr. Glavis admitted that he had no first-hand knowledge and that he had testified merely from hearsay.

The examination had not gone along much further when the attorney and witness looked horns again on the subject of direct answers. Mr. Vertrees protested to the committee that Glavis always "lies a string" to his answers, and proceeded:

Long Answers Delay.

"I am trying to get at the purpose, the motive, the object of the witness, whether it is innocent or malicious."

Mr. Brandeis, attorney for Glavis, declared Glavis had stated his purpose in this inquiry.

"He has no other motive than to tell the truth," shouted the lawyer.

Chairman Nelson said: "It is apparent to me that almost every answer made by the witness has a string to it. He has made no direct answers. If we were proceeding in a court of justice, under rules of evidence, this state of affairs would not have been permitted. But we are moving along without rules of evidence, and the chairman is powerless to enforce any rules."

"I want to say, however, that the committee will be able to judge of the facts produced in this case, and

the only effect of these long answers with arguments appended is simply to delay the proceedings."

At the afternoon session Mr. Vertrees called attention to the fact that in his original testimony Mr. Glavis expressed surprise that Special Agent Sheridan, who succeeded him in charge of the Alaska cases, should have reached the same conclusion he had.

"Why were you surprised?" demanded Mr. Vertrees.

"Well, he had a letter of instructions, and I think they expected a different report; otherwise they would not have sent him out there."

"Who do you mean by 'they'?"

"Whoever wrote the letter—Mr. Schwartz."

Mr. Vertrees then read the letter into the evidence.

"During all the time you were in the service and in charge of the Alaska cases, did you not feel that you had the confidence of your superiors and did they not express themselves to you in communications from time to time?" asked Mr. Vertrees.

"Yes, sir," he said hesitatingly.

"And you say there was no harm done the government by the delay in 1908 when you were temporarily assigned to the Oregon cases?"

"No, sir, there was no harm."

He Meets With Pinchot.

"And you always had plenty of help?"

"Yes, sir."

Glavis would not admit that Secretary Ballinger and Commissioner Donnell acted on Sheridan's recommendation in postponing a hearing in the case in the summer of 1909.

Cross-examination of the witness as to his meeting with Clifford Pinchot at Spokane, Wash., in August of last year then was begun. Glavis said he told his story to Mr. Pinchot and that the latter called in ex-Governor Pardee, of California.

"But up to the time of your meeting with Mr. Pinchot, all that you wanted had been granted, had it not?"

"Yes."

"What was there to be gained in presenting the case to Mr. Pinchot? The forestry service had already intervened and your requests had already been granted."

"I thought, in view of all the facts and the difficulty I had had in getting a postponement of the case, that in view of the letters written by Donnell and his action throughout the proceedings that it would be only a little while until these cases were brought up again to be decided before either Mr. Donnell or Mr. Ballinger and I did not think they were fit people to render a decision."

Why He Went to Pinchot.

Chairman Nelson—"Did you think the forestry could act in these cases?"

"No, sir."

"What were your reasons for going to that bureau?"

"I did not think the heads of the Interior department and land office were men who could be depended upon to protect the government's interests."

Senator Root—"You believed the remedy was removal from office of these two men and you wanted Mr. Pinchot to help you in that?"

"It was not quite that," said Glavis; "I did not know exactly what to do. I wanted to get some good advice."

"Had you ever gone to him before?" asked Mr. Vertrees.

"No."

Why He Wrote Letter.

"When you sought to get the forestry to intervene in these cases and before going to see Mr. Pinchot, had not you written a letter to assistant Law Officer Shaw, of the forestry service, in which you said: 'Another point involved to which your attention is called, is that the entire field has been withdrawn from all forms of entry. Therefore, should these filings be cancelled, there would be no opportunity for other filings to be made. This would enable the forestry service to secure certain legislation, which would enable it to control the output of coal in a similar manner to that which they now are disposing of the timber.'"

"Yes, sir."

Not Grabbing Alaska.

Washington, Feb. 19.—The interesting spectacle of the Morgan-Guggenheim syndicate, through legal representatives, appearing before a congressional committee to justify its operations in the development of industries in Alaska, packed the room of the senate committee on territories.

Some days ago J. P. Morgan & company asked permission to send representatives to answer "exaggerated reports printed in the magazines and newspapers of the work of the syndicate formed by that company and the Messrs. Guggenheim." The permission was given and John N. Steele, general counsel for the syndicate, and Stephen Birch, the managing director, testified that all the money spent in the enormous development of Alaskan resources had been furnished by the syndicate itself; that the Morgan-Guggenheim syndicate had not issued to the public a single bond or a share of stock; that the syndicate had never received anything from the government in the way of money, grants of land or special rights.

It was testified further that the syndicate owned one railroad and had no interest in any other in Alaska; that it owned one copper mine, and had no interest in any other, and owned no coal lands at all.

Testimony was given about the negotiations for the Cunningham claims, but it was said these hinged upon patents being issued for the claims, and that these negotiations had come to nothing.

Steele and Birch denied with great emphasis that they were trying to "gobble up Alaska."

Think of a Business With Over Four Million Customers!

Here is an unusual opportunity to invest in a stock that pays 8% dividends—a stock that has never paid less than 7½% annually during the past twenty-seven years.

You Can Be a Stockholder

In this great business, you can be one of the 27,000 other stockholders whose investments are earning 8% annually—double the interest paid by savings banks, yet the safety is beyond question.

Over 4,364,000 Patrons

This great business is the American Telephone & Telegraph Company. Perhaps you know it better as "The Bell Telephone System"—a system which penetrates every state in the Union—which serves over 4,364,000 subscribers from 5,043 Telephone Exchanges, with 8,008,007 miles of wire.

Its Immense Holdings of Stocks and Bonds

The American Telephone & Telegraph Company is one of America's stupendous enterprises. It is both an operating and a holding company. It owns a majority of stock in, and exercises a virtual control over, all the forty old Bell Telephone Companies of the United States and Canada. It controls, by majority stockholdings, the Western Electric Company—the largest manufacturer of telephone equipment in the world, and which supplies all the equipment used by the associated companies. On June 30, 1909, these holdings amounted to \$383,918,322.

Another Great Source of Income

Aside from the Company's immense revenue derived from its holdings of the securities of the Associated companies, it derives a large income through its direct ownership and operation of all the long distance and toll lines which connect the Associated Bell System throughout the country.

Property Holdings Valued at \$589,370,000

The holding of physical property amounts to \$589,370,000, and this exceeds all capital liabilities by approximately \$35,000,000. Yet this surplus of assets does not include the incalculable value of rights-of-way which years ago were acquired at cost of \$8,000,000, nor does it include franchises and patent rights.

Its Stupendous Earnings

During 1908 the gross earnings were \$27,898,970, out of which \$12,459,156 was paid in dividends. The

report for the first 11 months, to November 30th, 1909, shows a large increase over 1908.

A Remarkable Dividend Record

For the past 27 years the annual dividends have never been less than 7½%. The dividend rate now is 8% and has been such for the past three years. Contrast this rate with the 3% or 4% which savings banks pay and consider the enormous amount of assets which add stability and safety to the unusually large income.

Head the List of Popular Investments

This stock, for net income yield, stands at the top of the following list of high-class investment securities. These prices are current Stock Exchange quotations on the day of this writing—February 5, 1910.

A Corporation Of and For the People

The Capital Stock is \$252,845,000, and is held by 28,370 stockholders, with an average of 60 shares each. 26,213 persons hold less than 1,000 shares each, so that it will be seen that no other Public Service Corporation is so widely owned by the public it serves.

An Added Inducement

An investment in the stock of the Company places investors in line to enjoy an exceptional benefit. It is the usual policy of the Company to issue new stock to its shareholders of record at par. This policy has been of great value in the past, and promises even greater future value. Ask us to explain this by letter.

Send for Complete Information

The Stock and the 4% Convertible Bonds of this Company make a desirable investment from the standpoint of safety and income yield. We shall be pleased to correspond with any having funds for investment, and will gladly send complete descriptive printed matter on request. Small orders are given equal attention with larger.

The Week In Society.

WASHINGTON.

Still in dreamless sleep by the soft-flowing river
Where first was laid low his mighty head;
Where the Blue-Mountain guard, he rests forever—
The nation's sacred, time-hallowed dead.

Under the turf of his loved Mount Vernon,
With never a murmur to break the spell,
Save the voice of the waves that soothe his slumber
He sleeps. In his own last words:—" 'Tis well! "

The dust of a century's gathered above him;
Empires crumbled, thrones have awayed,
Yet still he lives in the hearts that love him,
The homes made blest by his trusty blade.

No mortal hand was 'lowed to strike the blow
That laid the hero of an hundred battles low.
To one alone—Death—that power was given,
Sent by the will of Him who rules in heaven.

The willow weeps above the noble brow
That bowed alone to Him to whom all must;
The hush hallowing laurel justly crowns
The laurel now droops o'er the warrior's dust.

Yet the hearts and the voices of freedom will sing;
Through the echoing future his glory will ring;
And the unwearying corridors of fame
Shall echo forever with Washington's name.

Go, fur the banner he so proudly bore;
Go sheath the blade he so deservedly wore;
The banner that has viewed such devastation,
The sword that flashed for freedom and the nation!

And rest, thou honored chieftain over more
Content, thy noble work on earth is done,
Thou'rt gained the crown in thy last battle—that
Of death o'er life, the greatest victory won.

Columbia holds thy name in reverent deep;
'Twill gala bid greatness with the beaming years;
Thy memory by the world be sacred held,
Thy grave be hallowed by a country's tears.

No lust or sculptured column need commemorate his fame,
'Tis the glory of the nations to revere the hero's name.

SOCIAL AND CLUB CALENDAR

MONDAY—Paducah Knights of Pythias will celebrate the forty-sixth anniversary of Pythianism in America at the Three Links building. It will be an informal reception and social session with attractive program features.

TUESDAY—The Delphi club will meet at 10 a. m. in the club room

at the Carnegie library. The program will be:

1. Elizabeth as Queen—Mrs. George Langstaff.
2. The Golden Age of Literature—Spencer, Sidney, Bacon—Mrs. W. G. Morrow.
3. Ireland Under Elizabeth—The Spanish Armada—Mrs. E. M. Post.
4. Ecclesiastical Writers—Mrs. W. W. Powell.

WEDNESDAY—The Literature department of the Woman's club will meet at 10 a. m. at the club house. The American writers for discussion are:

1. Charles Egbert Craddock—Mrs. Dan McFadden.
2. Margaret Deland—Mrs. W. L. Bradhard.
3. Mary E. Wilkins—Miss Lowry.

WEDNESDAY—The Magdalen Musical club will meet at 3 p. m. at the Woman's club house. It will be a "Schubert Day" program with Miss Letha Puryear leader for the afternoon.

THURSDAY—Miss Kathleen Whitefield is hostess to the Magdalen club at 2:30 p. m. at her home, 635 Kentucky avenue. The magazines to be reported are:

North American Review—Miss Daw Husbands and Miss Helen Lowry.

The Outlook—Mrs. Saunders Fowler and Mrs. E. G. Boone.

The Century—Mrs. Samuel T. Hubbard.

THURSDAY—Social evening for Mrs. E. C. Boone's Sunday school class of the First Christian church with Mr. Joe Harth at his home on North Ninth street.

THURSDAY—A stereopticon journey through China at the Broadway Methodist church, at 8 p. m., under auspices of the Junior Warden Missionary society.

7. "Rosamund"—Impromptu—Mrs. George B. Hart.
8. (a) "Nacht und Trummer" (b) "Bark, Bark, the Lark"—Mrs. Gray.

K. P. Social Evening. Paducah lodge, No. 26, Knights of Pythias will entertain at Castle Hall in the Three Links building on Monday evening at 8 o'clock, in celebration of the anniversary of the order. It will be a social evening with an informal musical and literary program, fun and refreshments. The invitations are cleverly gotten up in the form of a post card with a man telling you all about it under the head, "Say it's too good to keep." Mr. A. E. Stein is the chairman of the Entertainment committee.

Washington's Birthday. No large Washington Birthday fetes have been planned—at least not announced—by Society this year. It seems a pity for the day lends itself to clever entertaining. There are so many attractive ways of featuring Washington Birthday parties. Tent has intervened this year, however, and any celebrations of the day will be more or less informal affairs, as delightful as they are elusive.

A Stereopticon Evening. A realistic evening in the "Dragon Empire" by the means of stereopticon travelog will be given on Thursday evening at 8 o'clock in the lecture room of the Broadway Methodist church, under the auspices of the Junior Warden Missionary society of that church. John Chinaman at home in both public and private life will be interestingly featured. A number of the views are hand-colored and are very beautiful. It will be an interesting peep through the "great open door of the Christian era."

To Entertain Sunday School Class. Mrs. E. C. Boone's Sunday school class of the First Christian church will be entertained by Mr. Joe Harth, one of the members, at his home on North Ninth street, on Thursday evening. The class consists of 16

boys and each will bring a gift friend. It will be a delightful social occasion.

Injured at Frankfort. Mrs. James Leech, of Louisville, president of the Kentucky Federation of Women's clubs, fell yesterday on the board walk coming from the new capitol to the street car, and sprained her wrist. Mrs. Leech had intended remaining several days here but returned home last evening on account of her injury, which was quite a painful one.—Kentucky State Journal.

Mrs. Wilson's "A Home." Although the snow storm did its best yesterday afternoon to discourage all who tried to venture out, yet a goodly number called at the Mansion and enjoyed a cup o' cheer with Mrs. Wilson.

Miss Mary Lee Warren, of Louisville, served tea from the daintily appointed table, and Governor Wilson assisted in making the guests enjoy the afternoon.

The parlor was particularly cozy and inviting with ferns and carnations on the tea table and mantle.

Mrs. Wilson will be at home to visitors again next Thursday afternoon from three until six.—Kentucky State Journal, February 18.

Delightful Afternoon at Woman's Club. A beautifully appointed tea in compliment to the teachers of Paducah and McCracken county was given on Thursday afternoon by the Paducah Woman's club. It was a most delightful social occasion and notwithstanding the heavy snow storm in progress was quite largely attended. A representative number of teachers, clubwomen and a few mere men were present.

The club house looked charmingly hospitable and the rooms were attractively decorated throughout with carnations in a color-coordinated pink and white. A delightful musical and literary program was rendered in the auditorium downstairs and the refreshments were served in the dining room.

The Educational department of the club was in charge of the open meeting. Mrs. L. O. Walker, chairman of the department, presided most graciously. The program was opened by a charming vocal number artistically given by Mrs. Lela Wade Lewis. She was sympathetically accompanied on the piano by Miss Adah Bradshaw.

The address of the afternoon was made by the Rev. M. E. Dodd, of the First Baptist church. Dr. Dodd's theme was "The Extent to Which Religion Should Form a Background for Moral Training," and he handled it in an attractive and interesting way.

The club hostesses for the afternoon were: Mrs. L. O. Walker, Mrs. George Flournoy, Mrs. W. J. Hillis, Mrs. John Quincy Taylor, Mrs. Frank Fisher, Dr. Della Caldwell, Miss Blanche Hillis, Delicious chocolate, mints, and Benedict cakes were served in the dining room upstairs. The table was charmingly appointed in the pink and white motif.

A short business session of the club was held preceding the open meeting. Mrs. Robert Becker Phillips was president pro tem. A communication from Judge A. W. Barkley in regard to the co-operation of the Woman's club with the county judge in establishing a juvenile court, was read and discussed. Splendid talks favoring the move were made by Dr. Della Caldwell, Miss Mahony, the district nurse and investigating secretary of the Charity club; and Prof. J. A. Carnegie, superintendent of the city schools. The club voted to actively co-operate with Judge Barkley in the good work he is to set on foot.

One new member was received into the club at the business session, Mrs. Allen W. Barkley.

IN FOOD

What a Clergyman's Wife Found. The wife of a Minnesota clergyman found the solution of her troubles in a simple change of food of which she says:

"My case proves that proper food will cure almost any ailment. For years I suffered from dyspepsia which became chronic and was treated by some of the most skillful physicians but was not cured.

"Medicine would help for a time but the old troubles would always return because the cause was still there, and kept me weak and sickly most of the time. I had the grip every year for five years, always suffered from colds and my whole condition showed that I did not get the proper nourishment from food.

"Finally I began eating Grape-Nuts according to directions. I may say that since that time my stomach has not troubled me at all but a remarkable change took place. All through the long cold winter I ate nothing but a saucer of Grape-Nuts and cream in the morning and no matter how severe the cold I did not suffer and I did not have the grip or even a cold.

"Grape-Nuts food certainly nourished me until I have a strong constitution, feel like a new person, and indeed never was healthier in my life."

LATEST NEWS.

Dandruff, Falling Hair and Itching Scalp Cured or Money Back

"I used one bottle of Parisian Sage, and it did all you claim it would do. My hair is fluffy and clean from dandruff since I used the Sage, and I am going to keep it constantly on my dressing table for toilet use."—Mrs. M. Griffin, 326 W. 9th St., Davenport, Iowa.

"Parisian Sage is certainly a wonderful hair restorer. My husband and I both have used it, and find it to be just as advertised."—Mrs. D. Schorling, 220 Wagon St. Toledo, O., Oct. 23, 1909.

Parisian Sage is sold by druggists everywhere, and by Gilbert's drug store for 50 cents a large bottle, and is guaranteed to cure dandruff, stop falling hair and itching scalp, or money back. It makes hair grow soft, lustrous and luxuriant, and is not sticky or greasy. The girl with the Auburn hair is on every bottle.

ence K. Bell, of McCracken county, will take place Wednesday at 10 o'clock in the morning at the home of the bride-elect in Los Angeles. The ceremony will be quiet with only the relatives and intimate friends.

The wedding march will be played by Mr. Ralph M. Cobb. The bride will be given away by her father, Mr. J. A. Bauer. Immediately after the ceremony the couple will leave for Long Beach and southern California on a bridal trip. Enroute to Paducah they will visit relatives in Denver. Early in March they will be in Paducah and will reside on the Mayfield road three miles from the city.

Miss Bauer is the eldest daughter of Mr. and Mrs. J. A. Bauer, and is an attractive young woman with a host of friends here, where she was reared. About a year ago she removed west with her parents.

Mr. Bell belongs to a prominent county family. He is the eldest son of Mr. and Mrs. Jesse Bell, who reside on the Mayfield road several miles from the city. He is the junior member of the Valley Farm Creamery company, and a popular young man in the city.

The marriage of Miss Hattie May Miller, of La Center, to Mr. Simon Kenton Holland, also of La Center, will be solemnized Thursday at 5:30 o'clock in the afternoon at the home of the bride-elect. The couple will leave at 6:30 o'clock for a bridal trip through the south.

Miss Miller is well known in the city as frequently she has been the guest of Mrs. Vera Hankins and Miss Lela Hollan. She is the daughter of Mr. and Mrs. L. W. Miller, and a young woman widely popular in her home town. She is an attractive girl of the brunette type. Mr. Holland is an enterprising young business man of La Center, engaged in the hardware business. For several years he was connected with the store of L. W. Henneberger, of this city, and gained many friends here.

He, She—or It.

You can speak of the well-dressed man as "he." But it will take a straining of the eyes not to call him "she" at first glance. That much is due to the well-dressed man this spring.

It may be the suffragette movement or it may not be, but it is certainly something is making men's styles look like skirts every year. Take the new opera cape overcoat, for example. It hangs from the shoulders to the knees, is lined with silk and is buttoned up the front like a directoire gown.

When Mr. Well-Dressed Man enters the theater he will bring another surprise. For his evening coat will be more like a gown than an article of male attire. Instead of silk facing there will be a velvet ruche or shawl collar creling his neck. It's great for people disposed toward colds. Protects the neck like a woman's ostrich feather bon.

A peep at the new dress vest will bring another surprise. Instead of V cut it is a U.

But for morning wear the vest is different. Only two pockets, each big enough to conceal a grapefruit without causing a bulge.

The suit to be worn with this noisy and "sassy" vest will be plaid. Not checked, as some mild persons would have it, but wild woolly plaid like the Scotch bagpipers have worn for years.

Spring overcoats will be of the auto variety. That means that the huttons will be as big as an auto tire. Black circles, one within another, will heighten the effect.—Exchange.

Mr. E. A. Kelley, Beaverville, Ill., writes us: "I am an ex-engineer with 22 years active service to my credit. About three years ago my kidneys were affected so that I had to give up my engine. First I was troubled with severe, aching pain over the hips. Then following inflammation of the bladder, and specks appeared before my eyes. A sample of Foley's Kidney Pills that I tried, so benefited me that I bought more. I continued to take them until now I can safely testify they have made me a sound and well man."—Gilbert's Drug Store.

CLEAN PLAYING MARKS CONTEST

BASKET BALL GAMES LAST NIGHT ENJOYABLE.

Larger Crowd Watched High School vs. D. A. D. and Elks vs. Light and Power.

HIGH SCHOOL AND ELKS WIN.

Teams—	W	L	Pct.
C. C. & W.	6	0	1000
D. A. D.	6	2	750
High School	5	2	714
Elks	4	3	571
L. & P.	2	3	400
Indians	1	6	143

Fast and exciting games were played last night in the city basketball league, when the High school quintet defeated the D. A. D. team by a score of 20-13, while the Elks were easy victors over the Light and Power boys.

The feature game was between the students and the fraternity lads, and it was one of the cleanest games ever played on the local floor. The hall was visible at all moments, and the players abided by the rules in good style. The game was fast, replete with team work, and several spectacular throws for field goals were made. The two teams are well matched, and are now tied as the fraternity captured the first game of the season from the school lads. High school started off with a jump, and rang up several baskets before the Greek letter team got down to business. After returning to the floor from an airship trip the players got busy and threatened to tie the score, but High school kept going, and always pulled out of danger.

The Elks defeated the Light and Power team by a score of 15-9. The game was full of rivalry, and although the L. & P. team was patched up a brave struggle was put up, but the Elks have developed too strong team work for the team. In the first half the score stood 10-2 in favor of the Elks, and it was increased in the second half, but the L. & P. quintet made a determined effort to increase the small end of the score.

The teams lined up: High school—Kling, center; Ogilvie, and Brownling, forwards; Endriss and Sills, guards.

D. A. D.—J. Shelton and W. Fisher, center; Elliott, Harlow, McGinnis, forwards; Terrell, Shelton, and W. Fisher, Bagby, guards.

Elks—Cox, center; G. Hughes and Entton, forwards; Goodman and Henneberger, guards.

L. & P.—S. Hughes, center; Froge and Reburn, forwards; Harbeur and G. Shelton, guards. The officials were: Kelley, referee; Harth and Lydon, umpire; Fisher, time-keeper, and Robertson, scorer.

Phases. Despite the cold weather last night a large crowd was out to see the sport. The first game was one of the best ever played, while the second game was good, although played a trifle rougher.

Browning and Endriss did the stellar work for High school. Browning scored five field goals while Endriss rang up four field goals and two fouls. W. Fisher pitched three field goals and McGinnis two field goals and a foul for the D. A. D. team.

On this 17th day of February, A. D. 1910, on considering the petition of the aforesaid bankrupt for discharge, filed on the 16th day of February, A. D. 1910, it is ordered by the court that a hearing be had upon the same on the 12th day of March, A. D. 1910, before said court, at Louisville, said district, at 10 o'clock in the forenoon, or as near thereto as practicable; and that notice thereof, if published one time in The Paducah Sun, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and place, and show cause, if any they have, why the prayer of the said petitioner should not be granted.

Witness the Honorable Walter Evans, Judge of the said Court, and the seal thereof, at Paducah, in said District, on the 17th day of February, A. D. 1910.

J. R. PURYEAR, Clerk.

Near Billiards. Two traveling salesmen, detained in a little village hotel, were introduced to a crazy little billiard table and a set of balls which were of a uniform dirty gray color.

"But how do you tell the red from the white?" asked one of the guests.

"Oh," replied the landlord, "you soon get to know them by their shape."—Success Magazine.

The early edition catches the book and show cause, if any they have, why the prayer of the said petitioner should not be granted.

Daily Thought.

God will fairly flood your life with all the power he can trust you to use wholly for Him.—S. D. Gordon.

So far as we can see, the net result at Cairo has been to discourage mob violence by shooting into the mob, and to accelerate the grist of justice by frightening a dozen very undesirable citizens into confessing crimes, and taking extremely severe sentences.

TAFT MEN ARE ALL RIGHT.

There are said to be three factions in Kentucky—a Bradley faction, a Hitchcock faction and a Taft faction. The men who have received no recognition at Washington are the Taft men, the apollis being divided between the senator and the postmaster general.—Louisville Post.

Out here in the First district, where the whole force of the Fairbanks strength was centered at an early convention in an effort to make a breach in the southern delegation, the Taft men are getting everything, and we have no proof that the same condition does not exist all over the state. No reasonable person would expect a Republican president to deliberately ignore a Republican senator in the distribution of federal positions in his state.

CHINN'S CHARGES.

We cannot believe it is true, as insinuated in the Louisville Herald, that the threat made through the Courier-Journal and snatched up by the Democratic press of the state, to repeal the bi-partisan board bill and put the state institutions in the hands of a board by the legislature, was intended simply to bluff the state authorities into silence concerning mismanagement and brutality at the Frankfort penitentiary. Yet, if we were prison commissioners and at all sensitive, we should insist on a thorough investigation of Jack Chinn's charges. Indeed, Chinn has put it up to them pretty stiff. He said when Senator Watkins declined four senators had been bribed by the whisky lobby, he was immediately hailed before a special committee. Senator Chinn has made serious charges of flagrant violations of the dictates of humanity as well as other derelictions in the penitentiary management, and yet, he has not been hailed before any committee; and it is charged that Senator Hogg was served with a subpoena duces tecum, in order that the committee might take away from him certain documentary evidence, he is said to possess.

It is true that there was much talk, emanating from the Courier-Journal, whose managing editor is also one of the managers of the legislature, about abolishing Governor Willson's board which, by-the-way, has nothing to do with the penitentiary. No attempt was made to put this plan into the execution, for some reason.

"MANIFEST DESTINY."

What would be the result today if we surrendered the Philippines, the Hawaiian Islands and Guam?

A decade ago, we all looked upon the acquisition of the Philippines as a "white man's burden," and the declaration of William McKinley that the "benevolent assimilation" of the islands of the Pacific was "manifest

destiny," was not appreciated by us in the full significance with which it is regarded today.

Did McKinley himself appreciate the full significance of his words; and, if so, did he, or what far-seeing statesman did, look ahead to the Pacific ocean as the theater of world interest during this generation?

Sometimes, perhaps, as in this case, a statesman is driven by the fate itself to violate a precedent and run counter to the traditional policy of race and nation, and, in searching for vague, high-sounding expressions to justify his conduct, springs something like "manifest destiny"; and then when subsequent events justify the action, and it becomes apparent that providence did guide, or rather force, his hand, he is credited with almost prophetic vision.

Such has been the case with the Philippines. Going to war with Spain in the cause of an oppressed people, this nation has faithfully kept her promise by Cuba, but it was necessary to strike every possession of the enemy. Had we not sent Dewey to Manila, some other power would have struck it from Spain's hand or bought it from the tottering power. Supposing it had been Japan; she would have held the key to the Pacific with a great island possession almost within direct striking distance of our shores, while her own remained safe from our navy. We could not coal ships in California and send them across the Pacific to Japan, without revealing and the neutral ports of Asia would be closed to us in time of war. Our fleets would then arrive in Japanese waters helpless hulks, awaiting Japan's own good time to be crushed.

But "manifest destiny," whether McKinley meant that this nation was forced into the acquisition of the islands, or whether the administration anticipated the situation as it exists today, and felt that the time was not ripe to declare it—"manifest destiny" has placed in our hands the coaling station of Guam within striking distance of Asia, the great harbor of Manila, and Pearl harbor of Hawaii, the key to the Pacific side of the Panama canal, while Porto Rico on the Atlantic side is another guard.

That it requires a great fleet and more fortifications to protect outlying possessions, goes without saying; but who is there among those anti-administrationists, who abused Roosevelt for overriding the Asiatic discrimination of California with the supreme law of the land, that will deny we would need just as big navy to protect our Pacific coast from Japan, if we did not have the islands? And who can glance at a map of the Pacific and deny that a would be reduced to the humiliating extreme of guarding our own coast in case of war with Japan, did we not have the harbors and coaling stations along the route across the Pacific so that we may act aggressively?

To the eastward across the Atlantic the inspiration of our institutions has been slowly influencing the ancient monarchies of Europe for the welfare of mankind. To the westward across the Pacific the force of our declaration that "all men are endowed by their creator with certain inalienable rights; that among them are life, liberty and the pursuit of happiness; and that to protect these rights governments are instituted among men," must beat its way into the oriental mind, until the message, radiating eastward and westward from this nation, girdles the earth with peace and the spirit of the brotherhood of man.

Whether he was expressing his simple belief in God, that all will be well with his people, or whether he spoke as prophets speak, we thank William McKinley for again reminding us that this nation has a "manifest destiny," and that we see it most clearly when we shrink the least our responsibilities as a nation.

Some Stories Around the Town.

When stamps are purchased at the postoffice the buyer may notice that the gummed surface is always up. The rule never varies. It is a small matter, but the order has been issued by the postoffice department that the stamps must be handed out with the printed side down on the glass as a sanitary precaution. Probably it has never been noticed by the public, but this manner of handing out the stamps is expected to save many lives. Thousands of people visit the stamp windows daily, and each person glides his hand over the glass. The government experts figure that millions of germs of every tribe are deposited on the counter. When the stamps were thrown down on the glass the purchaser takes the bits of paper across the germ laden counter, and when the gummed side was down many hundreds were held prisoners by the glue. Later the purchaser would lick the stamp when the letter was mailed, and then in many cases the person was inoculated with the germs, and possibly many people have contracted germ diseases in this manner. Assistant Postmaster E. E. Bell has evolved a plan of folding the stamps so that the gummed side is exposed to the touch of human hands only slightly, besides in handling the stamps it is with a big saving in time. The sheets of stamps are torn in strips five stamps wide, and then folded one stamp in width with the printed side out. With the sheets folded it is not a tedious job to tear off a certain supply of the stickers. He explained his plan to the postoffice department, and he has received a let-

ter endorsing his method of handling the stamps with a small risk of exposing the gummed side as a field for the germs.

STATE PRESS.

State Tax Commission.

The tax commission's recommendation of a permanent commission is wise. It is the best way to secure a more orderly, business-like and successful collection of state and county revenues.

A permanent central board or commission of, say three members, whose sole duty it would be to follow all the details of the law, would be valuable beyond the expense many times over.

Thirteen states now have such commissions. Their reports and the results of their work are the most emphatic evidence of the wisdom of their establishment. It has paid.

One of these commissions (state of Washington) in their first annual report, show they discovered in the year \$50,000,000 unassessed property. Other reports show most systematic and careful work, giving great satisfaction to the states and to the people. In the equitable adjustment of taxation, as between counties and different classes of property and yielding increased revenue.

The Kentucky commission the past year collected much information of value which should not be lost. This turned over to a permanent commission would furnish a good beginning.

The senate bill, No. 60, introduced by Senator Combs (same bill, H. B. 376, by Mr. Linfucker) is taken mainly from the Wisconsin act, 1905. It has worked admirably in Wisconsin.

Good men on this commission could make their mark and render great service to the state.

Our revenue laws are sadly out of gear and need readjustment. It is to be hoped that the general assembly will pass the bill.—Courier-Journal.

THE PUBLIC FORUM.

The Abandoned Farm.

The idea prevails in some quarters that, with the approaching end of free land in the west, the era of abandoned farms will be forever past in the United States. Nothing could be more erroneous. There never were more abandoned farms in the history of the United States than there are today.

There never was a period in the history of the world—not excepting times of war and famine—when such uniformly high prices ruled for farm products, when the world demand was so uniformly greater than the world supply; and there never has been a period—as far as the United States is concerned—when there were so many abandoned farms, when there existed such a uniform deterioration in farm values, such a uniform and persistent movement away from the land to the town in the sections of the country known as the abandoned farm areas.

Take the United States as a whole—on the 1st of January, 1909, according to special returns gathered by the conservation commission, there were 16,000 square miles of abandoned farms, chiefly in New England, New York, the southeast and the middle central states. That is, there are in the United States at present 16,000,000 acres of abandoned farms—an area the same as all that part of the Canadian northwest that is cultivated, fifteen times the size of Rhode Island, four times the size of Connecticut, twice the size of Massachusetts, twice the size of New Jersey. Averaging up all the farms of the United States, the size per farm is 146 acres; so that there are enough abandoned farms to set up 70,000 farmers. Doesn't look very much as if the abandoned farms were decreasing, does it, though one hears general rumors to that effect constantly?

Take the abandoned farm areas by sections—in New York state between 1880 and 1900 more than 14,000 farms were abandoned, more than 400,000 people left the country for the city; twenty agricultural districts showed a decrease in the population. If New York land were worked to its full capacity it would support a population equal to France, between thirty and forty million people. As matters stand, the population is over 7,000,000; but 5,000,000 of these are city people, who draw their sustenance from other states. Practically, only a little over 2,000,000 are drawing their support directly from the soil.

The same story could be told of all New England with the exception of parts of Maine and Massachusetts. The funny man's description of crops of moss from New York, summer borders for New Hampshire, summer swells for Massachusetts, and commuters from New Jersey," is, of course, an exaggeration; but it is an exaggeration that has a lot of truth in it.—Coffier's.

AN APPRECIATION OF DR. W. E. CAVE.

By Church Building Society of First Presbyterian Church.

In the unfolding of the mysteries of the Providence of God, Dr. W. E. Cave, pastor of the First Presbyterian church of Paducah for 25 years, and recently a resident of Danville, Ky., has been called from earth to heaven; from this earthly life, which is mortal, to that heavenly inheritance, where life is glorious, immortal and complete. He had been a strenuous and a patient laborer in the kingdom of Christ on earth. The Master beckoned and the weary minister of God entered into rest; the faithful soldier of the cross entered into his reward. His gain has been our loss, his entrance into life triumphant has made heaven richer forevermore, but it has left earth poorer. In his death the Church Building society has lost a loyal friend. He was uniformly considerate, helpful and kind. No appeal for advice or encouragement ever went unanswered. He was unfailingly sympathetic and attentive, his responses to every call being quick and complete. As the years passed we felt the silent influences of a character in which were blended tenderness and justice, love and loyalty. The purity of his heart and the fidelity of his life are inspirations to us. He rests from his labors, but to us has fallen the responsibility to labor on, knowing that in God's scheme of life nothing is lost; that all faithful labor has its reward.

The members of our society and his large circle of friends will miss his friendly interest, his kindly ministry. The separation attendant upon his call into the world beautiful brings sorrow and loneliness to our hearts, but there is joy and comfort in the consciousness of the sure fact that though dead, he yet liveth. The risen Lord came back from the tomb and "hath abolished death and hath brought life and immortality to light."—Mrs. E. R. Bradshaw, Mrs. Luke Russell, Mrs. J. D. Moenquott, Miss Helen Lowry, committee.

FLAG RAISING

PUPILS OF WHITTIER SCHOOL WILL CELEBRATE.

Addresses Will Be Made By Hon. Charles K. Wheeler and Judge Barkley.

The flag raising exercises will be held by the pupils of the Whittier school Tuesday afternoon at 2:30 o'clock. The handsome flag won in the civic improvement contest last year will be unfurled to the breeze for the first time. As the schools will be closed Washington's birthday a large crowd of school children is expected, while the invitation will be extended to the general public. Prof. H. L. Donovan will be in charge of the program, which will be delivered in the North Twelfth Street Baptist church owing to the large seating capacity.

The program will be: Song—"America." Recitation, "February"—Lucile Weatherford. Recitation, "Our National Banner"—Warren Davis. Song—"Washington's Birthday." Address—W. J. Mills, president of the school board. Recitation, "Washington"—Ellen Bruner. Quartet—"Mount Vernon Bells." "Story of the Cherry Tree"—Ivori Weatherford. Recitation, "Our Cherished Flag"—Mamie Bruner. Address—Hon. Chas. K. Wheeler. Address—Judge A. W. Barkley.

MAN IS WOUNDED AT CHERRY MINE

FOREIGNER SHOTS TOP ROSS DOWN FROM BEHIND.

Eleven Mummified Bodies Are Removed From St. Paul Shaft in Which Fire Is Raging.

CHAS. ATHERTON THE VICTIM

Cherry, Ill., Feb. 19.—Charles Atherton, known as the top boss at the St. Paul coal mine, was shot and probably fatally wounded. The shooting occurred while the bodies of entombed miners were being recovered. Atherton was in charge of all the work at the top of the shaft. At about 3:30 o'clock a man who had been loitering about the place shot Atherton three times from the rear. The crowd about the shaft was thrown into a panic. The would-be assassin started to run down the railroad tracks with the sheriff and a posse in pursuit. "Shoot him," "kill him," yelled the crowd. The man had run through the main streets of the town when he was overtaken. He gave his name as Peter Brown, but is evidently a foreigner. He said the reason for shooting was that Atherton had refused him a job. Atherton's condition is critical.

Eleven bodies of miners were recovered from the mine. To the amazement of veteran mine inspectors, the bodies, entombed since last November 13, when brought to the surface were found to be almost perfectly mummified.

The bodies were found with the arms stretched forward and face down, having been suffocated as they ran, probably by a gust of heat and gas. Shut in airtight chambers when the mine was finally sealed up, they remained in a kind of oven in which the temperature was a little above blood heat, slowly drying up.

Fire is still raging in the mine. A new tunnel, or entry, 150 feet long, had to be cut around a fire area before the bodies were reached.

Miscellaneous. Headed for Evansville after going out of the Cumberland river yesterday afternoon the Hyman packet Electra was compelled to turn back in face of the ice and arrived at Paducah at 10 o'clock last night. She will lie here until the heavy ice passes and go back to Nashville.

A small gorge is said to be formed at Carville and the ice above here is heavy and thick. It will pass here some time today. Ice conditions this year have been almost unparalleled. The towboat T. H. President John E. Rollins and Secretary Charles Robertson, of the Paducah and Illinois Ferry company, returned from Ohio river points at 5 o'clock this morning, where they asked for bids for a new \$30,000 ferryboat to replace the ill-fated Little Owen. Blue prints of the new boat were obtained at Jeffersonville, Ind., and they expect all bids to arrive here by Monday or Tuesday. They will be opened and the lowest bidder will be awarded the contract for the boat to be completed in 90 days. The two owners visited ship-building plants at Louisville, Jeffersonville, Cincinnati, Marietta, O., Wheeling, W. Va., and Pittsburgh. They left Pittsburgh Thursday night for Paducah. Heavy snow along the upper Ohio are reported by Captain Rollins and Robertson. They say the Ohio is full of ice, although it is not very heavy. The Pittsburgh harbor is said to be full of ice.

Evansville Wedding of Interest Here
 The Evansville Journal-News of February 18, contains the following notice of a beautiful wedding in that city that has local interest, as the bride is a niece of Mr. and Mrs. A. Korth, of Paducah and has visited here, and her father, Mr. Frank Pritchett is well-known in Paducah, as he was chief of police of Evansville for seven years:

"The home of Mr. and Mrs. Frank Pritchett on Powell avenue witnessed a beautiful marriage ceremony on Wednesday evening at 8:30 when their daughter, Miss Florence Emma, was given in marriage to Mr. Earl LeRoy Sansom, the Rev. Dr. John Kennedy officiating in the presence of a company of relatives. The bride wore a gown of pink and white with a train of pink tulle and carried a bouquet of pink carnations. The groom wore a tuxedo and carried a sword. The ceremony was a most beautiful one and was witnessed by a large number of guests. The bride and groom were accompanied by their parents and other relatives. The reception was held at the home of Mr. and Mrs. Frank Pritchett. The bride and groom were most graciously entertained by their hosts. The wedding was a most successful one and was a great joy to all who attended it."

The cold weather has been extremely hard on the railroad employees, and especially the yard employees. The freight business has been heavy, but under the weather conditions it has been about difficult to keep passenger trains and perishable goods moving. Much of the heavy freight has accumulated in yards, but as the weather is moderating the congestion will be relieved in a few days. While lifting a heavy block out of a cinder pit this morning Isaac Churchill, colored, slipped, and the heavy block struck him on the left leg. The bone was not fractured, but a severe bruise was made. He was carried to the railroad hospital. Dr. D. G. Murrell, chief surgeon of the local hospital, will leave Monday for New Orleans to attend a meeting of the surgeons of the Illinois Central system. The surgeons will meet February 23 and 24. At one time Dr. Murrell was vice-president of the association.

Attractive Rembrandt Morning.

The Art department of the Woman's club enjoyed a most interesting "Rembrandt Morning" today at the club house. It was the finale of the series of studies of "Rembrandt, the Shakespeare of Painting," to which several Saturdays have been devoted. Owing to the illness of the Art chairman, Mrs. Victor York, Miss Gilson, the secretary presided. The paper of the morning was given by Mrs. John Donovan. It was "Rembrandt's Pictures—Continued" and was a splendid summing up of the paintings not heretofore discussed.

A delightful feature of the morning was an exhibition of a collection of photogravure copies of the paintings of Rembrandt, that were made in Holland. These are owned by Mr. J. J. H. Johnson, of Paris, Tenn., a native Hollander, who collected them during a visit to Holland in 1906 at the time of the Rembrandt jubilee. There are 42 pictures and the collection is most valuable and interesting. The pictures were generously loaned to Mrs. I. O. Walker, by Mr. Johnson, who is a friend of Col. Walker. On each picture was an explanation in Dutch of the painting and these were most delightfully read to the department by Mr. A. H. Sonneveld, of Rotterdam, the young tobacconist, now located in Paducah. As Mr. Sonneveld had seen many of the originals in the art galleries of Holland he added a zest and charm to the pleasure of the morning.

Next Saturday morning an extra meeting of the Art department will be held and the following artists of Holland will be discussed: Ruyssdael by Mrs. John Dorian, Cuyper by Mrs. C. C. Grassham, Hobbema by Mrs. W. L. Braluard.

Mr. J. H. Hodges left yesterday for Henderson on business. Mrs. Charles Grith, of Mound City, Ill., is visiting Mrs. J. C. Harris, 821 South Eleventh street.

Mr. and Mrs. Roy Gresham, Mr. Sam Dreyfuss, and Mr. Herbert Walderstela returned this morning from St. Louis, where they attended the automobile show.

Mr. Will E. Crow left today for Idaho, Oregon and California on a several months' business trip.

Attorney John G. Miller left early this morning for Cincinnati. Mrs. George C. Wallace returned last night from Danville, where she has been with relatives.

Messrs. W. E. Paxton and F. W. Katterjohn returned this morning from Chicago, where they have been on business.

Miss Thillie Anspacher, of New York, arrived in the city early this morning.

Mrs. Wallace Aaron is ill of pneumonia at her home, 706 South Fourth street.

Miss Pearl McKee, of St. Louis, returned to her home this morning, after visiting her cousin, Miss India Lang, 1006 Clay street, for two months.

Mrs. Charles E. Graham, 421 Monroe street, is quite ill from grip. Miss Margaret Lowry, of Lexington, will arrive this evening to visit her nuns, Mrs. J. F. Smith and Miss Helen Lowry, 1223 Broadway.

Miss Carrie Rude, of Eldorado, Ill., will arrive this evening for a visit to her sister, Mrs. A. E. Stein, 428 South Fourth street.

STORING COAL

ILLINOIS CENTRAL IS ANTICIPATING STRIKE.

Cold Weather Is Hard on Railroad Men, Especially in the Yards.

In anticipation of a coal miners' strike the Illinois Central railroad is storing coal along the Louisville division. In Paducah the railroad officials are placing coal in the yards, and the wrecker has been moved so that the track may be utilized to unload coal. Should the strike be called by the miners the railroad would have a supply on hand sufficient to operate for some time.

The cold weather has been extremely hard on the railroad employees, and especially the yard employees. The freight business has been heavy, but under the weather conditions it has been about difficult to keep passenger trains and perishable goods moving. Much of the heavy freight has accumulated in yards, but as the weather is moderating the congestion will be relieved in a few days.

While lifting a heavy block out of a cinder pit this morning Isaac Churchill, colored, slipped, and the heavy block struck him on the left leg. The bone was not fractured, but a severe bruise was made. He was carried to the railroad hospital.

Dr. D. G. Murrell, chief surgeon of the local hospital, will leave Monday for New Orleans to attend a meeting of the surgeons of the Illinois Central system. The surgeons will meet February 23 and 24. At one time Dr. Murrell was vice-president of the association.

Miss Lucinda Galloway, of the Fulton office, has returned to her home, after an operation for nasal trouble.

H. B. Clancy, of the blacksmith department, returned today from Chicago.

Freeman A. W. Burger is on the sick list.

Engineer William O. Burch has returned to work, after being ill for several days.

C. W. Potts, of the car department, is ill of the grip.

Ed. Johnson has gone to Jackson, Tenn., to spend several days.

The railroad shops will be closed February 22, as usual. A bulletin has not been posted, but the officials expect the holiday.

Harvey Gammon, a machinist's helper, will leave tomorrow for New London, N. C., where he will visit friends and relatives.

J. E. Happs, general boiler inspector, has returned to Chicago, after inspecting the boilers of the transfer boats, Duncan and DeKoven.

Engineer Tim Austin is on the sick list.

Northwestern Accident.
 Chicago, Feb. 19.—Fourteen were injured today when a Northwestern passenger train was derailed near Little Saumico, Wis., near the Michigan border. None of the injured will die.

To the creditors of Richard B. Laycock, of Paducah, in the county of McCracken and district of Columbia, a bankrupt: Notice is hereby given that on the 16th day of February, A. D. 1910, the said Richard Laycock was duly adjudicated bankrupt, and that the first meeting of his creditors will be held at my office in Paducah, McCracken county, Kentucky, on the 23rd day of February, A. D. 1910, at 3 o'clock in the afternoon, at which time the said creditors may attend, prove their claims, appoint a trustee, examine the bankrupt and transact such other business as may come properly before said meeting.

The Railroad Bill.
 Washington, Feb. 19.—The administration railroad bill, amending the Interstate commerce act, originally introduced in the house by Representative Townsend of Michigan, was reintroduced by him with a number of important amendments drawn by Attorney General Wickersham, which change the bill in the matter of creation of the court of commerce, in the regulation of stocks and bonds and the inclusion of electric railroads in the scope of the measure.

In many particulars the language of the bill is modified, and new sections are added. The amendment relating to the commerce court limits its powers to that of a federal circuit court to meet the objection made to the original provision that the court would have more extensive jurisdiction than the existing circuit courts of the United States.

The stock and bond provision is amended so as to permit of the reorganization of railroads and for the merger of railroads not directly prohibited. The net establishes the general principle that no stock shall be

issued by railroads except at par, and no bonds except at their reasonable market or selling value, as ascertained by the Interstate commerce commission; and where either stock or bonds are paid for in property, its fair value must be ascertained by the commission.

A railroad company is left free to acquire stock and bonds of another non-competing railroad, provided the aggregate amount of stock and bonds issued for such acquisition shall not exceed the fair value of the property, as ascertained by the commission, or the aggregate par value of the stock and bonds acquired without increase in the aggregate interest payable on such bonds.

These provisions, it is believed, will prevent the bill from interfering with any legitimate financing, while effectually preventing the issue of stock and bonds without proper legal safeguards. The bill further provides that any officer of a railroad corporation who violates the law may be punished by a fine of \$3,000 or three years' imprisonment, or both.

The electric railroads, in the amended bill, are ascertained the concession they desired, as ascertained at the recent hearings, wherein it was complained that the bill was a discrimination in favor of the steam lines, to the financial detriment of the electric railroads.

WITH THE SICK.

Mrs. J. L. Woodridge, of the Mayfield road, has recovered from her recent illness.

Mrs. Fred McCreary, of North Thirteenth street, is ill of the grip.

City Health Officer H. P. Sights has recovered from an attack of the grip.

Mr. and Mrs. R. B. Penn, of Tyler, are the parents of a fine girl baby.

Misses Maud and Ella Cunningham, 626 North Sixth street, are ill of the grip.

Mr. Carlyle Beck is ill of grip at his home on South Ninth street.

Mrs. Samuel Boyd, who resides on Jones street, is very low at her home.

Mrs. Jake Straub, of North Fourth street, who has been ill of grip, is improving.

S.S.S. THE REMEDY FOR SORES AND ULCERS

There is but one way to cure an old sore or chronic ulcer, and that is to remove the cause that produces and keeps it open. No matter where located, any sore that remains until it becomes chronic does so because of impure blood; the circulation constantly discharges its polluted matter into the place and it is impossible for nature to heal the sore. S. S. S. heals sores and ulcers by purifying the blood. It removes every trace of taint or impurity from the circulation, and thus completely does away with the cause. No local application reaches below the infected flesh at the spot, and for this reason can have no curative effect on a sore or ulcer; while such treatment is being used alone, the germs and impurities are constantly increasing in the blood and the sore is bound to grow worse. When S. S. S. has cleansed the blood and enriched and purified the circulation the place begins to take on a more healthy appearance, the different symptoms show improvement, the flesh around the ulcer gets firm, new skin and tissue are formed, and aided by pure, rich blood, nature provides a perfect and lasting cure. Under the tonic and blood-purifying effects of S. S. S., the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be greatly benefited by its use. HIGH SCHOOL GYM.

STUDENTS ENTERTAIN HOPE OF GETTING IT.

Henry Clay Debating Society Discusses Question of Pauper Care.

Students of the High school are anxious for the gymnasium, and their hopes have soared high because of the appointment of a committee to investigate the advisability of establishing it. The committee will meet Monday night for the purpose of talking over the gym, and it will be reported that the students have secured \$60 already for equipping the exercise hall. The Alumni association has contributed the money, and by athletic exhibitions the students expect to raise the remainder.

The Henry Clay Debating society met yesterday and discussed the question. Resolved, That the Housing of the Poor Should be Improved by the Municipalities. After a close decision the affirmative side won out. The victorious debaters were: Marvin Sills, Joe Harris and James Lukens, while the negative was defended ably by Helen Burkholder, Faine King and McClaine Mitchell.

THE LEGISLATURE

(Continued from Page One.)

is that the secretary of state has the appointment of the examiners in the Bertham-Niles bill, while the Arnett-Klair bill, which provides for both a state banking commissioner and examiners, lodges the appointment of the commissioner in the hands of the governor, the commissioner to name the examiners. The latter bill is being ably championed by Judge Jere A. Sullivan, of Richmond, while Secretary of State Bruner, is boosting the other. The committee has undertaken to consolidate the two bills taking the best features of each.

More Pay For Magistrates.

What will no doubt be good news to the magistrates of every county in the state, is the bill offered in the house by Representative T. M. Bertham, of Lewis county, increasing the pay of members of the fiscal court from \$3 to \$5 a day, while attending the sessions of court.

Message From Governor.

A message was received from the governor, in which he suggested that he does not care to share responsibility in either a bond issue or interest-bearing warrants. The governor said he thought that a night raise in taxes would be better than either. The governor discouraged the hawking about of the state's warrants like boom-town script, and also advised that a good policy to adopt would be to be careful in appropriations and to arrange to "pay as you go."

Wants to Use Discretion.

The governor said that the "American National bank, presumably of Louisville, has offered to loan the state \$500,000 at 4 per cent."

The governor said that the state of Kentucky is a safe borrower, and that he anticipated no trouble in getting money. He recommended power to issue either bonds or interest-bearing warrants, or both, to the extent of \$500,000, saying that if there were competition in seeking to borrow money that plenty of interest-bearing warrants, or both, would come in.

He suggested that if money were borrowed it should be used to pay only obligations past or now due. The message was referred to the committee on rules.

The contest committee in the case of Scott vs. Trivette, Pike county, reported in favor of Mr. Trivette, the sitting member. This action was approved.

Legislative Digest.

The question of adopting the legislative digest as the official organ of the house caused a lively discussion. Mr. Zimmerman opposed it, as he said the publishers had been placing it on the desks of the members without authority.

Mr. Shanks favored the resolution. He said he thought the digest a good thing for the members.

Mr. Chinn opposed the resolution. He said he wanted to repeat his charges to the effect that "a clearing house" had control of the legislature, and, in this connection, he said that he wanted to renew his charge that the prison commissioners had elected the legislature.

Mr. Hollind said that he understood that it was the sense of the legislature that the "digest" should take the place of newspapers as the official organ. Mr. Hollind said that he thought the "digest" an excellent institution.

Mr. Newell said that he favored the "digest." That he is inexperienced in legislative matters, and that he finds daily use for the publication.

Mr. Niles opposed the resolution, and said that the members ought to

have diligence enough to keep up individually with the proceedings. Mr. Harris spoke strongly in favor of the resolution.

Mr. Shanks again spoke in favor of the resolution.

Resolution Failed. Mr. Chinn said that either the "digest" or the clerk of the house is official; that if the "digest" is right the clerk is wrong, but that the clerk has said the "digest" is wrong. Mr. Chinn demanded to know who owned the "digest." Mr. Shanks said he did not know. He insisted that it is an economy to the state to adopt the "digest," that it has merit, and that it should be adopted.

The resolution providing for the adoption of the "digest" was declared lost, as it failed to receive a constitutional majority, the vote being 41 to 28 in favor of it.

Mr. Klair made the point that the resolution did not come within the scope of an "appropriation measure." The chair ruled that it did. Mr. Zimmerman sought to clinch the defeat of the measure, and Mr. Klair moved to adjourn.

The house adjourned until next Wednesday.

An effort was made to strike from the bill the authority of the agricultural commission to appoint the road superintendent, and placing the election in the legislature. The senate defeated it, as being too small a piece of pie to have legislatures scrambling over.

The house went over a resolution to adjourn today until Wednesday next, because of Washington's birthday. Senator Hurnam spoke strongly against wasting two legislative days. The senate delayed action on the resolution to 1:30 o'clock.

Plea Against the Bill.

Senator Thomas made a strong plea against the bill as a whole. He declared it was taking out of the hands of the people at home the control of their roads and centralizing power over them in the state capital at Frankfort. He declared that Democrats favoring such laws would turn their backs upon the principles of the party.

Bill Is Passed.

Senator Thomas declared that the bill, if passed, is unconstitutional, as it was never contemplated by the people when they voted on the good roads amendment that our county can be taxed to build roads in another county.

Senator R. B. Brown attacked the constitutionality of the companion bill No. 51, and urged defeating bill No. 50. The bill No. 50 was put upon its passage and adopted by a vote of 24 to 10.

The senate here suspended the rules and took up bill No. 126. The committee substitute appropriates \$22,500 annually each for the Richmond and Bowling Green normal schools, and \$30,000 additional annually for the State University at Lexington.

Adjournment Until Wednesday.

The question of adopting the house resolution to adjourn to next Wednesday here came up. Senator Thomas offered an amendment that the senate met Saturday and adjourn to Wednesday. The amendment was defeated 24 to 11, and the house resolution was adopted by the same vote.

The Enrollments committee reported senate bill 24.

The school appropriation bill was adopted by 28 to 3.

Senator Combs wanted all special orders passed to next Wednesday, but could get no second to his motion.

The "extra help" resolution appropriating \$8,200 was adopted, its second passage through the senate.

The calendar was read and a number of bills referred.

Besties He Dodged Exit Bill. Frankfort, Ky., Feb. 19.—When the senate convened this morning Senator Linn moved that the body proceed with the call of the committee where it left off yesterday.

Senator Thomas, of Bourbon, objected. The vote was 20 for the Linn motion to 13 against it. President Cox declared the motion lost, it not having received a two-thirds vote. This left the senate where it closed yesterday.

Senator Cureton noted the presence of some 300 Louisville High

school and Manual Training school boys, with fifteen of their professors, who came here on a special train from Louisville. The boys gave their school yell, and not as much noise has been heard in the senate during the present session. On motion of Senator Cureton, the senate recessed for ten minutes, and retired to the lieutenant governor's room adjoining the chamber, where a brief reception was held, the visiting boys shaking the hand of the president and members of the senate.

Arnett Is Sore.

When the senate resumed, Senator H. M. Arnett received recognition and arose with a copy of the Kentucky State Journal in his hands. He declared the Journal made an unwarranted attack on him. He said he would not have come to the senate, but for his interest in the bank and bonding bill; that at the time the senate was considering the county unit matter he was with the governor and treasurer considering these measures.

"If I had been here I would have voted for the bringing out of the county unit bill. My life in one community for a half century has been an open book, and I have never dodged anything in my life."

Neither the bonding bill nor the bank bill had reached a point of consideration nearly as close as the county unit bill yesterday when Senator Arnett absented himself from the senate at a most vital time for the county unit bill.

Newcomb Motion Lost.

Senator Newcomb moved the senate to receive the committee reports, read the calendar and proceed with the orders of the day. Senators Thomas and Watkins opposed. Senator Watkins said he requested that he was unavoidably absent yesterday, and asked the senate to

place his county unit bill in the order of the day. President Cox declared him out of order, and the roll was called on the Newcomb motion. It received 18 votes to 17 against it, and was lost.

"We are now in special orders of the day," ruled President Cox.

The good roads bill was the first special order. Senators Howorth, Linn and Combs wanted the State Normal appropriation bill placed ahead of the roads bill. Senator H. B. Brown objected. Delegations from the Eastern and Western normal schools were present in the lobby, headed by Judge J. A. Sullivan, of Richmond, and Prof. H. P. Cherry, of Bowling Green.

President Cox ruled that it would take a two-thirds vote to advance it is withdrawn.

the school bill. Twenty-four voted for advancement to 10 against it, and the motion failed.

Good Roads Bill Up. This put the good roads bill, No. 60, before the senate for consideration. It creates a road department in the state department of agriculture, placing an expert in charge.
